

6.5kW Spot Cooler

Low GWP, energy efficient, small, portable, versatile spot cooler suitable for any purpose

Key Features

- Massive 6.5kW of heat rejection on standard 13a plug
- Low Global Warming Potential refrigerant
- EC fans: Greater efficiency, better performance and fully controllable
- Smaller delivery and exhaust ducting due to using backward curved impellers: Much more manageable in tight spaces like data centres and server rooms
- Digital thermostatic control: Allowing for an easy and more accurate performance
- High performance, energy efficient cooling solutions for today's environmentally conscious market
- Unit is on castors for easy positioning and setup
